PROFESSIONAL SUMMARY

Institutional development and training professional with UAE experience since January 2021 across customer service, labour complaint research and institutional development. Rebuilds and operates development systems, follows strategic performance indicators, and executes risk, audit, training and documentation workflows. Produced more than 300 training videos through filming, editing and translation. Combines hands-on program delivery with visual communication, workflow design and AI-assisted tool development.

PROFESSIONAL EXPERIENCE

Labour Consultations and Claims Center, UAE
Affiliated with the Ministry of Human Resources and Emiratisation (MOHRE)

Institutional Development Executive
October 2025 - Present

- Rebuilt institutional development systems from the ground up and manage their daily execution as the department's sole executive staff member, under departmental leadership.

- Record monthly actual results against strategic KPIs; contribute to annual strategic planning and revisions with senior management, with approval retained by leadership.

- Operate risk management workflows; prepare annual audit plans and audit tasks, conduct internal audits, document improvement opportunities and follow up on corrective actions and external audit requirements.

- Built and operate the training program and follow up on delivery and employee learning. Filmed, edited and translated more than 300 training videos covering labour and domestic worker law, leadership and communication.

- Deliver classroom sessions on institutional development systems, occupational health and safety, and communication; maintain knowledge resources, work guides, documents, meeting minutes and feedback tools.

Complaint Research / Customer Happiness
March 2024 - September 2025

- Selected among the top ten employees without law degrees to support the complaint research function.

- Prepared labour complaints between parties to employment relationships and sought amicable resolutions before referral to a legal conciliator.

Customer Service / Complaint Registration
January 2021 - February 2024

- Handled telephone and legal inquiries, registered labour complaints and followed up on their progress.

- Worked across inbound and outbound assignments within complaint registration, supporting accurate records and clear communication with customers.

Freelance Visual Content Creator
Before moving to the UAE in January 2021

Freelance

- Delivered photography, videography, editing, design, drawing and visual content during the pre-UAE stage of my career.

- Focused on video production, logos, posters and advertising materials.

Youssif Wagih Abounasser

SELECTED PROJECTS & CAPABILITIES

CORE COMPETENCIES

Strategic planning support; KPI monitoring; risk management; internal auditing; external audit coordination; training needs analysis; learning content development; classroom training; knowledge management; document control; process improvement.

INSTITUTIONAL DEVELOPMENT PROJECTS

Systems rebuilt and operated as part of institutional development responsibilities:

Strategy management: Organized goals, indicators, targets, weights and monthly readings to support performance monitoring and strategic plan follow-up.

Risk management: Structured risk registers, likelihood and impact assessments, treatment plans and follow-up actions, including workplace safety.

Institutional auditing: Connected annual plans, audit tasks, checklists, evidence, findings and improvement follow-up.

Training management: Built learning workflows spanning needs, plans, content, assessments and follow-up through electronic and classroom delivery.

Instant training: Connected performance observations to relevant training topics and a report to support targeted learning.

Knowledge and data: Organized data and knowledge resources, performance indicators and monitoring dashboards.

Work guides, documents and archives: Organized operating guides, decisions, circulars, forms and reference documents, with an archive for older records.

Meetings and daily notes: Built tools to document minutes, decisions and actions, and to organize day-to-day work details.

Employee voice and surveys: Organized suggestions, observations and survey feedback to support review and improvement.

TECHNICAL SKILLS

Video and design: Adobe Premiere Pro, After Effects, Photoshop, Illustrator, InDesign, DaVinci Resolve, CapCut, Canva and Figma.

Digital learning: Instructional design, training scripts, video production, content translation, learning paths and training follow-up.

AI and digital systems: ChatGPT, Claude, Gemini, Runway and Sora; prompt development, workflow design and AI-assisted system building.

EDUCATION

Technical Industrial Institute - Surveying and Infrastructure Department
Alexandria Technological College, Egypt | 2017
